**"Grigory Ranch made a strategic decision to steadily improve our herd with a heavy emphasis on Vintage genetics. Vintage has a first-class operation and our program has been the beneficiary of their dedication and commitment to raising the best cattle in the industry. We see a distinct increase in the marketability of our calves through the VAR bull high-growth performance genetics. Our mother cows and replacement heifers are improving every year in both phenotype and calving ease. For us, we see investing in Vintage Genetics as a total value proposition – great genetics paired with great customer service."**
